Amendment Date:	January 31, 2003	
Policy Holder:	Director, Ancillary & Facility Services	
Policy Number:	FA-003	
Category:	Facilities	

## SPECIAL OCCASION LICENSES: EVENTS WITH ALCOHOL

### 1.00 STATEMENT

While the College does not encourage the provision and consumption of alcohol at events on campus (or on campus under the College's name), it does recognize that responsible use of alcohol is part of normal social interaction in today's society. As such, the College will allow its facilities to be used and its name to be lent to recognized internal groups wishing to hold events where alcohol is to be served. To minimize risk and liability to all parties involved, the College will require all sponsors of these events to adhere to the guidelines and procedures that have been developed.

### 2.00 GUIDING PRINCIPLES

Only those persons who have successfully complete the ['Serving it Right'](#) Licensee program will be eligible to apply for a special occasion license. Self-study packages and final exam booklets are available from any provincial liquor store and should be sought well in advance of any planned events.

The following guidelines must be observed to assure that all events are enjoyable and incident free:

- 2.01 Only graduates of the 'Serving it Right' licensee program shall organize and make application for Special Occasion Licenses.
- 2.02 Only graduates of the 'Serving it Right' server program shall dispense liquor at sanctioned events if those persons are receiving remuneration for doing so. (This does not apply, therefore, to volunteers.)

- 2.03 The holder of the Special Occasion License must remain in attendance at the event for the duration of the event.
- 2.04 Entrances and exits must always be controlled by responsible individuals during the event. Only those persons of legal drinking age will be admitted.
- 2.05 Alternative beverages (coffee, juice, pop) must be made available at the event.
- 2.06 Food must be available at the event.
- 2.07 If alcoholic beverages are being sold at the event, the prices charged should be the maximum allowed by the Liquor Distribution Board and should not be subsidized in any way.
- 2.08 Persons responsible for serving alcoholic beverages must make themselves aware of who is being served and avoid providing others with the opportunity of getting drinks for impaired persons.
